

# Hygiene situation examination of your factories (Prevention of Product Contamination)

*Do you suffer from these issues?*

- Contamination occurred, but cannot find out root causes
- Complaints from your customers about contamination
- Low awareness about hygiene of employees and difficult to tackle with
- Contracted with local pest control operators, but wonder if it is really effective
- Spraying pesticides blindly, worry about chemical contamination
- Running behind on everything, and not being preventive control

***How about getting a health screening of your factory?***

**(Hygiene situation examination service)**

- Current issues and finding out of root causes
- Extraction of potential hazards / Risk assessment
- Countermeasures in detail and prevention of recurrence
- Proposal of hygiene management plans from now on (Introduction of preventive control)

**Depending on your issues, "Environmental doctors" inspect on site, and solve the problems!**

- Pest Management
- Prevention of hair contamination
- Prevention of contamination with pieces of plastic
- Prevention of microbe contamination
- Corresponding to international standards (HACCP, BRC, FSSC22000, AIB, etc.)
